**Subject: Business Update - Sealmatic India Limited Opens Sales & Service Center In Pune**  
**Scrip Code: - 543782 - SEALMATIC INDIA LIMITED**

Dear Sir/ Madam,

**Pune**, also called **Poona**, city, west-central Maharashtra state, western India, at the junction of the Mula and Mutha rivers. Called “Queen of the Deccan,” Pune is the cultural capital of the Maratha peoples. The city first gained importance as the capital of the Bhonsle Marathas in the 17th century. It was the seasonal capital of the Bombay Presidency. Now a sprawling complex of industrial suburbs has developed around the city. Large factories producing a wide variety of products are distributed along the roads radiating from Pune to Mumbai (Bombay), Ahmednagar, Solapur and Satara.

**Sealmatic India Limited (further referred as “Sealmatic”)** opened its “**Sales & Service Center**” in Pune. Customers in the OEM, the oil & gas, petrochemical, power generation and mining industries will now benefit from a local competence centre fulfilling needs of the customers in Pune towards application engineering, trouble shooting, failure analysis and host of other services. In addition to the services mentioned the centre in Pune will also act as a regional hub to support sales for OEMs in India and other strategic countries in Asia.

**Mr. Sanjeev Vange (Asst Vice President – Key Accounts)**, said “Having Sealmatic’s exceptional manufacturing capabilities in India is significant not only for the company to grow its business, but also for the Pune region, as it will provide local job opportunities and create a stronger industrial base in the region.”

The new facility provides local engineering, sales, and aftermarket support for Sealmatic mechanical seals, which includes:

- Service and repair of mechanical seals for all kinds of rotary equipment.
- Rapid installation and commissioning support at customer locations from Sealmatic’s team of local seal and pump experts.
- Onsite facility analysis and evaluation for energy and maintenance performance, and implementation support to improve efficiency and lower total cost of ownership of mechanical seals and systems.
